KEY PLANS FOR 2022

INTERNATIONAL COLLABORATION

- Continue to generate opportunities for chapters to get to know each other better
- Continue with quarterly meetings and check-ins with Country Representatives

EXTERNAL COLLABORATION

- Continue the monthly meetings and updates with CLAIR
- Revitalise and support key projects such as KenJETKai and Post JET Opportunities to enrich JETs and JET Alumni
- Continue to better the current branding and finetuning of procedures of JETAA International

LEADERSHIP MENTORING

- Continue to groom new leaders for JETAA International
- Encourage older alumni to continue to contribute to the community

SKILLS

Project management
Proposal planning

BRIEF INTRODUCTION

In the past 2 years as Chair, I have undertaken the major part of the planning for the International Meeting coming up in 2022, and I hope to be able to complete this massive 18-month long project in my final term. In addition, I have also taken every opportunity available to promote the global alumni chapters we have, so that we can cement the growing link between current JETs and JET alumni.

With the global pandemic that has struck every chapter, I have begun to implement various plans to help knit our international community together, and implemented procedures and plans that will help JETAA International run smoother and faster.

I have also helped build a more solid partnership with CLAIR and our various stakeholders - something which I hope to share with the next generation by continuing to groom new leaders so that our global JET alumni community will be able to help bring Japan closer to the world.

EXPERIENCE

JETAA International
